**Paving material** Porphyry

**Architectural Barriers** There are no architectural barriers

**The entrance** No limit of access

**Services parking** Parking available in the area, bank

**Entertainment and Catering** Shops and Cafès

### DESCRIPTION

*(Silvia Fasana)*

Going down along Street della Liberta', leaving the Casa Santa Maria della Pace behind us, and taking the right (it is important to pay attention to the cars parked on the footpath in the first stretch), we walk along the torrent Greggio which after a first stretch has been covered in order to realize a parking, flanked by a footpath made of porphyry. At the end of the parking we cross the street and we walk on a footpath made of tiles and porphyry before crossing Plinio street. Here, in a building which is today the seat of the bank Credito Cooperativo di Cantu', just beside the cash dispenser on the right, a little niche accommodates a picture of the *Madonna del Bisbino* protected by a grid. In this area there was the old bridge on the torrent Greggio where in 1929 the borderlines of Cernobbio, Place S. Stefano and Rovenna met, then united under a single municipality. This area was known as the hamlet Crotti, because 3 taverns existed there at the turn of the Twentieth Century. The third, with the name the Third Crotto is still existing.
